### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas L. Weller on September 7, 2005.

The application has been amended as follows:

-Claim 19 (Currently Amended) A method for measuring multiple signals, comprising the following steps:

(a) representing on a display a signal for each measured frequency channel;

(b) displaying masks that indicate when values for the signals are outside channel frequency limits; and

(c) determining mask margin by calculating distance of the signals to the mask; and using margin from the mask the mask margin as a tool to measure the quality of signals.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1/ On October 20, 2004, examiner uses Wichelman (6,785,540) to reject claims 17-20. However, on January 18, 2005, the Applicant argued that "USPN 6,785,540 (Wichelman) and the present patent application were, at the time the invention of the present patent application was made, owned by Agilent Technologies, Inc."

2/ On June 16, 2005, examiner uses LeCheminant et al (6,577,964) to reject claims 18 and 19. Again, on August 26, 2005, the Applicant argued that "USPN 6,577,964 (LeCheminant et al) and the present patent application were, at the time the invention of the present patent application was made, owned by Agilent Technologies, Inc."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
